

- Accessories for Modus Vivendi Lavatories
- Modular Layout
- Easier Installation

Modus Vivendi Accessories
TECHNICAL INFORMATION

SHELVES

Material & Construction

The Modus-Vivendi shelves are made from anti-microbial Solidguard. Solidguard is a composite material of acrylic polyester polymer resins and aluminum trihydrate fillers. The material is resistant to stains and burns and complies with ANSI Z124.3. Solidguard cleans easily with Scotchbrite®, household cleaners or fine grit sandpaper. Solidguard® is available in 16 colors.

The Modus-Vivendi shelves are supplied with heavy gauge steel mounting brackets.

Anti-microbial

The Modus-Vivendi shelves are manufactured with an anti-microbial agent. The agent is present both on the surface and on the inside of the material and will not dissipate or scratch off. In contact with moisture, anti-microbial ions will be released and effectively kill bacteria.

Standard Equipment:

5", 7", 10" or custom length shelf (5" to 30") with heavy gauge support brackets.

Optional Configurations:

All shelves longer than 10" can be supplied with an opening for trash. The 6" opening can either be round (-TCR) or square (-TRS)

CARRIER PLATE

The Modus-Vivendi lavatories can be supplied with a steel plate for plate carriers. The plate has the hole pattern conforming for any of the Modus-Vivendi lavatories. One plate is required for the MOD25 and VIV20 lavatories, 2 plates are required for the VIV50 lavatory. Fixture support studs and U-bolts are supplied by others.

Accessibility

Standard Height: The Modus-Vivendi are designed designed to meet all ADA and TAS guidelines when the Modus Vivendi lavatory is mounted at the standard rim height of 34".

Warranty: 5 years limited warranty on material and 3 years limited warranty on components.
